Processing Objective

TradingAlgo Mosaic automatically selects and monitors a weekly portfolio of five stocks from any analyzed market. The framework uses systematic trend, stability, and portfolio-contribution analysis to identify opportunities, track portfolio positions, and evaluate performance relative to the benchmark. Market currently monitored: US100, Europe50, Italy30

Bio

Domenico D'Errico, after holding various managerial roles within multinational companies, has been working as a quant developer for algorithmic hedge funds for the past 15 years. He is a CSTA (Certified SIAT Technical Analyst), an EasyLanguage specialist, a two-time winner of the 2011 TradeStation Developers Contest, author of *TradeStation EasyLanguage for Algorithmic Trading*, and contributor to *Technical Analysis of Stocks & Commodities*. He is also a member of research initiatives focused on the application of artificial intelligence to financial markets.

Disclaimer

This report is provided for research and educational purposes only and does not constitute investment advice, portfolio management, solicitation, or an offer to buy or sell any financial instrument. TradingAlgo Mosaic is a quantitative research framework designed to support investment analysis and decision-making. All information, rankings, simulations, and backtests are provided for informational purposes only. Past performance is not indicative of future results. Investing in financial markets involves risk, including the possible loss of capital. Investors are solely responsible for their investment decisions and should independently assess the suitability of any investment strategy.
